

Higher Visions For Education

Artful Expression and Creativity

Fall 2017

Week 3 Summary

This week, local professional visual artist [Kaitlyn Tucek](#) came to class to teach us the basics and visual strategies of creating landscape watercolors. Students were eager participants and really enjoyed the creative outlet and opportunity to try out new watercolor techniques.

Next week, Kaitlyn will be back to finish up our watercolor paintings, and guide us through creating abstract self-portraits with tissue paper. *Students should bring a small mirror to class if they have one, and wear clothes they don't mind getting dirty.*

If your student and/or family would like to walk with HVE and YPB for the Step Up walk, please register them on our [team page](#) so we know who is coming.
